POWER & ENERGY DIVISION

Continuing Professional Development Programme on **Franchisee Models in Distribution System – Implementation – Issues & Challenges**

21 – 23 November, 2017

255 Cities to adopt discom franchisees as per Shunglu Committee

Thanks to the model, **Bhiwandi** in Maharashtra cut commercial losses to **18%** from 58% in 5 years

Failed experiments: **Ranchi, Gaya, Jamshedpur, Agra, Jalgaon, Aurangabad & Ujjain**

16 Cities that have so far tried the model

The infographic features a background image of a high-voltage power transmission tower with power lines stretching across the scene. The text is overlaid on this background, with the number '255' in a large, bold, grey font. The number '16' is enclosed in a black circle with a white border. The text is in various colors (black, yellow, white) to stand out against the background.

Centre for Promotion of Professional Excellence

INTRODUCTION

Distribution franchisee model is a public private partnership initiative that has emerged as a solution to the problems affecting the power distribution segment such as high AT&C losses, poor infrastructure, weak financial position and lack of customer orientation. The model has evolved as a means to break the vicious circle of low realization, low investments, low consumer satisfaction.

Franchisee means a person authorized by a distribution licensee to distribute electricity on its behalf in a particular area within his area of supply. (Electricity Act 2003: clause 2; sub clause 27).

The Electricity Act 2003 provides for the appointment of a distribution franchisee in a specified area within the region of supply of the licensee, for which no separate license is required from the regulator. A distribution franchisee acts as an intermediary between the distribution licensee and its consumers. The licensee provides exclusive sale rights to an agency, which is solely responsible for managing the power distribution business in a specified geographical area.

OBJECTIVE

The objective of the program is to create awareness among the utility engineers about the evolution of Franchisee system in distribution sector, types of various franchise methods, effect of franchisee system on the distribution and on the consumers.

COURSE COVERAGE

- Introduction to Distribution franchisee in Indian scenario
- Franchisee model with experiences :
 - Model A-collection based revenue franchisee
 - Model B- Input based revenue franchisee
 - Model c- Input based franchisee
 - Model D- O&M Franchisee
 - Model E- Rural electric cooperative societies
 - Model F- Model E with operations management through contracting
- Business model for different franchisee arrangements
- Roles and responsibilities of various stake holders under different models
- Franchisee selection and sourcing
- Franchisee business planning, bid documents, agreement formats
- Consumer relationship management and consumer awareness
- Franchisee models- Issues & Challenges

METHODOLOGY

The programme will be conducted in an interactive environment providing greater scope for discussions. Emphasis will be on a highly participative style of learning. The faculty will act as provocateurs and resource persons and demonstrate application oriented studies rather than as teachers. The participants are expected to play a very active role not only as learners and facilitators but also as experts and practitioners in their own right.

FACULTY

Apart from Core Internal Faculty, Consulting Firms, Government Organisations, Academic and Research Institutions etc. will share the sessions.

TARGET PARTICIPANTS

Engineers / Executives of Power Utilities, Discoms, IPPs and Private Distribution Companies

PROGRAMME VENUE, DATES & TIMINGS

Engineering Staff College of India (ESCI) Campus, Old Bombay Road, Gachi Bowli, Hyderabad - 500032, Telangana, India.

DATES

21 – 23 November, 2017

TIMINGS

On the first day registration will commence at 0900 Hrs. On all other days the programme timings will be from 0945 to 1715 hrs with breaks in between for tea and lunch.

COURSE DIRECTOR

R V Chalapathi

Sr. Faculty - Power & Energy Division, ESCI

COURSE FEE

Residential Fee is Rs.15,000/- (Residential) per participant. Residential fee includes Course Material, Course Kit, and Twin-sharing / Single AC accommodation as per availability, Breakfast, Lunch, Dinner, Tea / Coffee and Snacks.

DISCOUNTS
