OHSMS 45001 : 2018 – Accredited Lead Auditor Training

09 – 13 Dec 2019, ESCI, Hyderabad

CONTINUAL IMPROVEMENT CYCLE

(An ISO 9001:2015 Certified, AICTE & CEA Recognized Institution)

Centre for Promotion of Professional Excellence

INTRODUCTION

Health and Safety at work are playing an ever increasingly important role for every organization. The occupation health & safety Management standard has provided valid criteria for the assessment of an Occupational Health and Safety Management System since 1999. The highly anticipated, the first global Occupational Health and Safety Management System Standard (OHSMS) ISO 45001:2018 published on March, 2018. Formally named as "**Occupational Health and Safety Management System – Requirements with guidance for use**" is new standard to improve the overall safety at the workplace and to reduce the number of occupational risks. ISO 45001 is intended to replace the widely implemented BS OHSAS 18001 and it is expected that organizations currently certified to BS OHSAS 18001 will need to migrate to ISO 45001 within three years of the new standard's publication.

This ISO 45001:2018 standard applicable to an organisation of any size, regardless of the industry in which it operates.

COURSE DESCRIPTION

This course will provide the knowledge and skills required to perform first, second and third-party audits of OH&S management systems to the new ISO 45001 standard, in accordance with ISO 19011 guidelines for management system auditing and the training course will provide technical knowledge and practical skills to become an internationally recognized OHS Management System Auditor/Lead Auditor.

LEARNING OBJECTIVES

- Understand and implement their own Safety Management System (SMS)
- Demonstrate organizational compliance with all the relevant legal requirements
- Understand the importance of safety policy based on all the significant risks
- Understand and demonstrate continuous improvement in occupational health & safety performance
- Apply consistent interpretation of the OHSMS 45001:2018 requirements
- Organize, lead and report an SMS audit of the organization against the requirements Standard
- Understand the importance of audit evidence, corrective action and performance monitoring

BENEFITS

1. Reduction in the number of accidents
2. Reduction in downtime and associated costs
3. Demonstration of legal and regulatory compliance
4. Demonstration to stakeholders of commitment to health and safety
5. Demonstration of an innovative and forward thinking approach
6. Increased access to new customers and business partners
7. Better management of health and safety risks, now and in the future
8. Reduced public liability insurance costs
9. Increase organisational resilience through proactive risk prevention, innovation and continual improvement
10. In implementing ISO 45001:2018 Certification, your organization ensures that it cares about the well-being of employees and is continually making efforts to enhance their welfare
11. It provides measurable systems that can verify OHS performance
