

# Engineering Staff College of India

Autonomous Organ of The Institution of Engineers (India)  
Old Bombay Road, Gachi Bowli, Hyderabad – 500 032. TS, India

**Quality & Productivity Division**

Workshop on  
**Total Quality in Vigilance**

**03 – 05 January, 2018**

## INTRODUCTION

Till recently, the most common refrain of any organization was that the vigilance set-up in the organization is more of an impediment and hindrance rather than an aid to managerial effectiveness. However today, the perception of the organizations is undergoing a paradigm shift and vigilance is being viewed as part of the overall risk management strategy of an organization where structures, systems and processes are built in such a manner so as to prevent adverse effect on productivity, profitability and reputation. It is being increasingly recognized that, vigilance in any government, public or private sector is like any other function of management, such as finance, personnel, materials management, contracts, quality control etc. and is thus an integral part of administration. All functions of the organization work in coordination to improve overall effectiveness and to achieve objectives for sustained success of the organization. It is therefore imperative that executives from vigilance and other functions are exposed to this aspect of Management for Total Quality in all the processes of the organization.

## ENABLING OBJECTIVES

- To Understand the emerging Methods, Techniques of conducting investigation and Reporting
- Learn the emerging role of Vigilance Function in prevention of Fraud & Corruption with the application of Modern Systems, Methods and Tools
