ENVIRONMENT MANAGEMENT DIVISION

Continuing Professional Development Programme on
**Implementation of e-Governance in
Urban Local Bodies**
14 – 16 September, 2017

(An ISO 9001:2008 Certified, AICTE & CEA Recognized Institution)

Centre for Promotion of Professional Excellence

INTRODUCTION:

e-Governance is a form of public administration making “use of information and communication technologies (ICT) to enhance the access and delivery of government services to benefit citizens, employees and management of urban local bodies.”

It aims to “help strengthen government’s drive towards effective governance and increase transparency to better management of social and economic resources for development.” e-Governance in municipalities is one of the Mission Mode Projects under the NeGP, which is expected to result in improved service delivery by local governments for the citizens. Implementation of e-Governance reform is one of the mandatory reforms under Atal Mission for Rejuvenation and Urban Transformation (AMRUT) scheme.

The aim for implementing e-Governance in municipalities is to:

- Focus on clearly identified citizen services that would be covered with clearly laid down service levels and outcomes to be achieved.
- Improve efficiency and effectiveness in interaction between local government and its citizens and other stakeholders.
- Improve quality of internal local government operations and management information systems to support and stimulate good governance.
- Bring about transparency and accountability in urban local body operations.
- Help improve reach of the delivery of services to citizens.

OBJECTIVE:

The key objective of this 3 day programme is to sensitize the participants on

- Single window system for delivery of services and information to citizens.
- Decentralize service delivery and improve accessibility of information to citizens.
- Increase the efficiency and productivity of ULBs.
- Re-engineer processes for better service delivery.
- Integrate data and services of various departments.
- Enhance efficient inter-departmental coordination.
- Timely and reliable management information relating to municipal administration for effective decision-making.
- Adopt a standards-based approach to enable integration with other related applications.

COURSE COVERAGE:

This programme is designed to cover broadly the following topics (Basic Citizen services, Revenue earning services, Development services, Efficiency Improvement services, Back Office Improvement and Monitoring)

- Digital ULBs – Concept and Implementation
