Centre for Promotion of Professional Excellence

INTRODUCTION

Purchasing and Supply functions are now recognized as two of the most important among core business processes. In an increasingly complex and dynamic environment, today's organizations are continuously looking for new ways to remain competitive. Purchase function can help provide a sustainable competitive advantage by improving product & service performance while simultaneously reducing cost. **Purchasing is now seen as more of a strategic function that can be used to control bottom-line costs. Companies are also seeking to improve purchasing processes as a means of improving productivity, customer satisfaction and also increasing profit.**

In the present competitive world, strategic purchasing and supply management is more than just negotiating a deal with suppliers. It is about efficiently managing all the processes relating to purchasing. **Application of Total Quality approach is the only way to improve purchasing process and sub processes to achieve organizational excellence.**

OBJECTIVES

- To incorporate the knowledge of Quality Assurance, Quality Systems, Supplier evaluation and TQM Principles.
- To apply statistical tools to improve purchasing process
- Benchmark the best practices of leading Indian/multinational organizations to achieve Organizational Excellence.

COVERAGE
