INFORMATION TECHNOLOGY DIVISION

PROFESSIONAL DEVELOPMENT PROGRAMME

Cyber Security Tools & Security Audit 03 – 05 January 2024

Powered by

ESCIUpSkill
A Smart Learning Platform

Introduction

In today's world, Information Technology is playing a pivotal role in business, most of the organizations and enterprises depend on different kinds of Information Technology solutions, say e-commerce, e-governance, e-learning, e-banking etc.. Battles between corporations, governments, and countries are no longer fought using physical force. Cyber war has begun and the consequences can be seen in everyday life. With the onset of sophisticated cyber-attacks, the need for advanced cyber security and Security Audit training became mandatory in the present day.

A cyber security audit focuses on cyber security standards, guidelines and procedures, as well as the implementation of these controls. The cyber security audit relies on other operational audits as well.

Objective

- Three - day, instructor-led course will provide you knowledge in Computer Security to protect your IT Infrastructure.
- This Course provides in-depth knowledge in Cyber Security & Security Audit

Course Coverage

Cyber Security
