Introduction
Climate change is one of the basic drivers of change for water, demographic, economic, social and technological forces. Policies, laws and finance also condition the impact of these basic drivers. Climate change can affect environment and resources directly, but also indirectly through its impact on the other drivers. The impact of climate change around the globe has serious implications like, changing water levels and climatic temperatures, which in turn affect the economy and future as a whole.

The Expert Committee on Impact of Climate Change set up by the Ministry of Environment & Forests in June 2007 assessed the impact of climate change on six areas, namely water resources, agriculture, Natural Ecosystem, Health, Coastal Zone Management and Climate modelling. There are Eight National Missions, which form the core of the National Action Plan, representing multi-pronged, long-term and integrated strategies for achieving key goals in the context of climate change. While several of these programmes are already part of India’s current actions, they may need a change in direction, enhancement of scope and effectiveness and accelerated implementation of time-bound plans. In order to understand this and National Action Plan on Climate Change (NAPCC) and its areas ESCI plans Training Programme on National Action Plan on Climate Change – GoI Missions.

Objectives
This is an approach towards making the related professionals aware about climate change impact on people, ecosystems and economies to gain a better understanding of climate science, impacts and challenges & integrated water resource management.

Course Coverage
- Global Warming and Climate Change
- Eight Core National Missions launched by Prime Minister’s office
- Eight National Missions and its Implementation with case studies
  - National Solar Mission
  - National Mission for Enhanced Energy Efficiency
  - National Mission on Sustainable Habitat
  - National Water Mission
  - National Mission for Sustaining the Himalayan Ecosystem •National Mission for a “Green India”
  - National Mission for Sustainable Agriculture
  - National Mission on Strategic Knowledge for Climate Change
- Institutional Arrangements for Managing Climate Change
- Cases studies and Group discussions.
Methodology
Methodology of the programme includes classroom Sessions with Lectures/discussions, with audio visual aid; bench-marked video shows, Chalk & Talk sessions, group discussions, case studies, debates, sharing of experiences, etc. All the sessions will be interactive, demanding active participation from all the participants.

Target Participants
The target participants for this training are city officials and administrators, state agencies and stakeholders working on this platform.

Programme Dates, Code & Timings
Dates: 03 – 05 January 2024, Code: 8058 & Timings: 10 AM Onwards.

Course Director
Ms. Anita Aggarwal
Faculty & Head I/c. Environment & Climate Change Division,
Engineering Staff College of India,
Old Bombay Road, Gachi Bowli, Hyderabad 500 032
Phone: Direct 040 6630 4120, 4122 / Fax: 040-66304163
Email: em@escihyd.org

Faculty/Speaker Details
Apart from the core internal faculty, Experienced Professionals/Faculties/Sector experts will be delivering the lively lecture with practical knowledge & case study.

Course Fee
- **Residential Fee**: Rs. 16,000/- (Rupees Sixteen Thousand only) per participant (Residential).
