Continuing Professional Development Programme on

Impact of Climate Change on Water Resources: Monitoring and Management

25- 26 April 2024

Interactive Sessions | Digital Learning | Assessments | 24/7 Experts Online/Offline Support

Introduction:

Welcome to the Continuous Professional Development Programme (CPDP) on "Impact of Climate Change on Water Resources: Monitoring and Management." This CPDP aims to focus on the crucial issue of climate change and its effects on water resources, along with strategies for effective monitoring and management. Through insightful discussions, presentations, and interactive sessions, we endeavour to explore the challenges posed by climate change and identify practical solutions to safeguard our water resources. ESCI has planned a two day training programme to provide professionals with the techniques and methodologies needed to understand and address the impacts of climate change on water resources.

Objectives:

Gain insights into climate change's influence on water resources locally, regionally, and globally. Explore innovative monitoring technologies and adaptive management strategies. Analyze case studies illustrating climate change's impact on water resources.

Course coverage:

- Understand the impact of climate change on water resources at local, regional, and global scales.
- Explore innovative technologies and methodologies for monitoring changes in water resources.
- Discuss strategies for adaptive management of water resources in the face of climate change.
- Case studies: Climate change impact on water resources.

Who Should Attend:

- Researchers and Academicians in the fields of climate science, hydrology, and environmental studies.
- Water Resource Managers and Planners from governmental and non-governmental organizations.
- Policy Makers and Government Officials involved in water resource management.
- Industry Professionals working in water-related sectors.
- Environmentalists, NGOs, and Community Leaders concerned about climate change impacts.

Programme Dates, Timings & Code:

Dates: 25-26 April, 2024, **Timings:** 10 AM Onwards & **Code:** CC 8042.
