Introduction
Join us for an immersive Continuous Professional Development Programme (CPDP) on “Nature-based Solutions for Sustainable Development,” where we delve into the transformative potential of harnessing nature to address pressing environmental challenges. In collaboration with leading experts and practitioners, this programme offers a unique opportunity to gain insights, exchange ideas, and explore practical strategies for integrating nature-based solutions into development initiatives.

Objectives

- **Understanding Nature-based Solutions**: Explore the concept of nature-based solutions and their role in promoting sustainability, resilience, and biodiversity conservation.
- **Showcasing Best Practices**: Learn from real-world case studies and success stories showcasing the effectiveness of nature-based approaches in diverse contexts.
- **Building Capacity**: Enhance your knowledge and skills in designing, implementing, and monitoring nature-based projects for sustainable development outcomes.
- **Fostering Collaboration**: Facilitate networking and collaboration among stakeholders, including policymakers, practitioners, researchers, and community representatives.

Course Coverage

- **Keynote Presentations**: Gain insights from renowned experts on the science, policy, and practice of nature-based solutions.
- **Panel Discussions**: Engage in dynamic discussions with multidisciplinary panels exploring the opportunities and challenges of mainstreaming nature-based approaches.
- **Field Visits**: Experience nature-based solutions in action through guided visits to local projects, showcasing innovative approaches and tangible outcomes.
- **Networking Opportunities**: Connect with like-minded individuals and organizations committed to advancing sustainable development through nature-based solutions.

Methodology
Methodology of the programme includes classroom Sessions by expert faculty, with Lectures/discussions, with audio visual aid; bench-marked video shows, Chalk & Talk sessions, group discussions, case studies, debates, sharing of experiences, etc. All the sessions will be interactive, demanding active participation from all the participants.

Faculty/Speaker Details
Apart from the core internal faculty, Experienced Professionals/Faculties/Sector experts will be delivering the lively lecture with practical knowledge & case study.
Target Participants

- Environmental policymakers and planners
- Conservation practitioners and natural resource managers
- Researchers and academics in environmental science and sustainability
- Representatives from NGOs, community-based organizations, and civil society
- Students and educators interested in environmental conservation and sustainable development
