Classroom Continuing Professional Development Programme on
Electrical Safety Procedures & Accident Prevention
21 – 24 August, 2024
at ESCI, Hyderabad

INTRODUCTION

Power distribution reform is widely viewed today as fundamental to improve commercial performance and financial viability of the power sector in India.

In the new environment the power utilities are looking to change their business structures to meet the challenge of deregulation, growing competition, effect of new technologies and climate impact.

Electrical Power Engineers in the utilities will therefore be distinguished by their ability to adopt safety procedures during operation and maintenance. Timely and proper first aid could save several lives of their own colleagues.

OBJECTIVE

The objective of this course is to build the capacity of technicians, junior management and middle management to adopt electrical safety procedures to prevent accidents, to impart awareness regarding statutory Rules, Regulations and Safety Audit, to take timely action to arrange first-aid during the accidents.

COURSE COVERAGE

- Basic Safety Principles, Safety as a Concept and Vision for Management
- Safety Checks and Analysis for Effective Implementation
- Identification of Hazards & its removal
- Earthing and Its Importance for Safety
- Distribution Earthing, Earthing Location for Equipment Shutdowns
