CERTIFICATION PROGRAMME ON

Microsoft Power BI Data Analyst

(Case study based Hands-on Practical Training)

23 - 26 June 2025

Introduction

Microsoft Power BI is a suite of business intelligence (BI), reporting, and data visualization tools and services for businesses. It converts your raw data into dashboards and visualizations. This allows you to analyze your data more efficiently, spot trends and patterns, and obtains actionable insights to make better business decisions.

Objectives

Upon completion of the training programme, participants will be able to:

- Increase your overall Power BI expertise and become power user
- Master data cleansing, data modeling, visualization and the Power BI service
- Become a Microsoft Power BI Data Analyst

Course Coverage

- Introduction to Power BI
- Understanding Governance in Power BI
- Essentials of Power BI
- Get Data from Data Sources
- Clean the Data
- Clean, Transform, and Load the Data
- Design and Implement a Data Model
- Create Model Calculations by Using DAX
- Optimize Model Performance
- Create Reports
- Enhance Reports for Usability and Storytelling
- Identify Patterns and Trends
- Create and Manage Workspaces and Assets

Methodology

Methodology of the programme includes class room sessions with Lecture / Discussion with Hands-on Practical, with tools, audio visual aid, bench marked video shows, Chalk & Talk sessions, group discussions, case studies, debates, sharing of experiences etc. All the sessions will be interactive demanding active participation from all the members

Target Participants

- Engineers / Executives working in the areas of Application development, Database Administration, Data Analytics & testing
- Govt. Defence, Public and Private sector personnel, who all wish to understand and enhance their skills in Data analytics and methodologies can attend the programme.
