CONTINUING PROFESSIONAL DEVELOPMENT PROGRAMME ON

ITIL V5 Foundation

For IT-Enabled Service Management

02 – 05 June 2026

(Classroom Training)

Introduction

The ITIL® owned and maintained by the UK Office of Government Commerce, is a globally recognized IT service management certification. The ITIL® Foundation is considered as the entry level qualification in the field of IT Service Management.

IT Service Management (ITSM) derives enormous benefits from a best practice approach. Because ITSM is driven both by technology and the huge range of organizational environments in which it operates, it is in a state of constant evolution. Best practice, based on expert advice and input from ITIL users is both current and practical, combining the latest thinking with sound, common sense guidance.

Objectives

The purpose of the ITIL® Foundation course in IT Service Management is to obtain knowledge of the ITIL terminology, structure and basic concepts and to comprehend the core principles of ITIL practices for Service Management. Participants will be able to guide an organization in implementing the best practices in IT Service Management and also in using IT as a tool for a business change and growth.
