CIVIL & TRANSPORTATION ENGINEERING DIVISION

Training and Development Programme On

**Safety & Risk Management in Construction and Civil
Structures by using AI**

27th – 29th October, 2026

Venue : A & N (UT) / ESCI, Hyderabad

INTRODUCTION:

Over the last two decades, the construction operations have undergone profound changes. However occupational health and safety issues have become a vital concern to construction sectors. Due to unsatisfactory safety management in construction industry, the society and economy have suffered financial and human loss. This impact is very high in developing countries like India. Nevertheless, when construction safety management is not carried out systematically, construction accidents will happen and this can influence the economic growth of the country.

This Training program deals with highlight the importance of construction safety management by using AI in occupational civil structures and Personal Protective Equipment (PPE) and also on Hazards of Construction and their Prevention and management systems

OBJECTIVES:

- To familiarize participants will strengthen the skills of professionals working in construction sectors
- To impart knowledge on Construction and safety management using latest Technologies.
- To describe various Latest Techniques used in Low cost housing Constructions.

COURSE COVERAGE :

- Overview of Safety & Risk Management in Construction and Civil Structures by using AI
- Enforcement of Health and Safety Laws - Health and Safety Commission & IS Safety Codes & Personal Protective Equipment (PPE) and Safety - General Requirements & Legislation for Protective Clothing and Safety Equipment
- Hazards of Construction and their Prevention and management systems.
- Foundations of Safety: Addressing Risks in Every Stage of Construction Projects
- Smart Sensors in Construction: Enhancing Safety and Quality Control & Structural Health Monitoring for safety of structures
- Drones in Construction: Aerial Innovation for Safer, Smarter Building
- Salient features of the occupational safety, Health & working conditions
- Group Discussion & Case study presentations by participants

BENEFITS TO THE PARTICIPANTS:

- Participants will gain knowledge & skills in understanding the safety standards for construction projects to improve work processes.
- Understand the importance of construction safety hazards and management.
- Gain exposure to sustainable safe construction practices and preventing hazards.
- Understand Structural Health Monitoring for safety of structures

TARGET PARTICIPANTS:

This course is suitable to all engineers and officers working at junior level to senior level from Government departments like R&B, PWD, MES, Municipal Corporations, Panchayat Raj, Housing Boards, GHMC, RITES, and Border Roads Development & Defense. Engineers from all State and Central Government Departments, & construction Companies.

RESOURCE PERSONS:

Renowned personalities both from Industry / Educational Institutions like IIT's/ NIT's / Research Institutes, Reputed Universities, who are experts in this field, will be involved in providing the training.

PROGRAMME VENUE, DATES &TIMINGS:

VENUE : A & N (UT) / ESCI, Hyderabad

DATES : 27 - 29 October, 2026
Registration : 10:00hrs.
Session timings : 10:30hrs – 16:30hrs with lunch break.

COURSE DIRECTOR:

Dr. R Venkat Reddy, Ph.D (Osmania), FIE
Head
